URGENT FIELD SAFETY NOTICE

MEDICAL DEVICE RECALL

August 2026

Product Field Action #: RA2026-4417798

Product Family Names: Orthopaedic implant components manufactured from UHMWPE (polyethylene), including legacy tibial inserts, patellas, acetabular liners/cups, shoulder and extremity implant components

Identification of the Affected Products: See **Appendix A: Part/Lot Number Attachment: RA2026-4417798**

Dear Customer,

Stryker has initiated a voluntary, lot specific recall for the devices listed in the **Appendix A: Part/Lot Number Attachment: RA2026-4417798**. The intent of this letter is to list all known hazards and harms potentially associated with the below noted issue and list the risk mitigation factors associated with the use of the product.

Issue:

Stryker has become aware that the devices listed in the **Appendix A: Part/Lot Number Attachment: RA2026-4417798** were manufactured with Ultra High Molecular Weight Polyethylene (UHMWPE) raw material aged in excess of five (5) years.

Industry guidance for storage duration of UHMWPE raw material used in the manufacture of implant bearing/articulating material of prosthetic joints is less than five (5) years. Product manufactured using UHMWPE raw material beyond the recommended storage duration has the potential for elevated levels of oxidation. Oxidation of UHMWPE material can impact material properties, potentially resulting in increased wear.

Potential Hazards:

- Excessive Wear Debris
- Material Fragments
- Fractured Device
- Disassociated Device

Potential Harms:

- Revision Surgery
- Pain
- Inflammation

Risk Mitigations:

Product with a high oxidation index can become discolored. However, not all product with a high oxidation index becomes discolored. In instances where the product is discolored, the issue may be recognized by the user. Where present, this visual observation may assist users in identifying potentially impacted devices prior to use. Based on medical assessment, the occurrence of the potential harms described above is considered low and unlikely. Post-market surveillance and complaint data have not identified adverse trends associated with the devices in the scope of this issue. Review of complaint and

vigilance data has not identified evidence suggesting elevated oxidation levels are associated with an increased clinical risk in the affected device population.

Recommendations for patients already implanted with an impacted device:

Patients treated with an impacted product should continue to be followed per the normal protocol established by their surgeon(s). There are no recommended changes to the frequency of the standard follow-up care protocol.

Actions Needed:

Our records indicate that you may have received the affected product(s). It is Stryker's responsibility as the manufacturer to ensure that customers who may have received these affected products also receive this important communication. We therefore request that you read this notice carefully and complete the following actions.

1. Please inform healthcare practitioners who have used devices in scope of this Urgent Medical Device Recall listed in the **Appendix A: Part/Lot Number Attachment: RA2026-4417798** and forward this notice to all individuals who need to be made aware.
2. Sign and return the enclosed Business Reply Form by email to **<XXXX@stryker.com>** to confirm receipt of this notification/documenting product segregation.
 - a. Response is required, even if you may not have any physical inventory on site anymore. It may be that you no longer have any physical inventory on site. Completing this form will allow us to update our records and will also eliminate the need for us to send further unnecessary communication on this matter. Therefore, please complete the form even if you no longer have any of the subject devices in your physical inventory.
3. Upon receipt of the complete Business Reply Form, Stryker will contact you to arrange for the return of your affected product(s). A replacement will be provided upon receipt of the recalled product.
4. Maintain awareness of this communication internally until all required actions have been completed within your facility.
5. If you have further distributed the affected product, please notify the applicable parties at once about this recall. You may copy and distribute this notification letter.
 - a) If possible, inform us if any of the subject devices have been distributed to other organizations, including contact details.
 - b) If you are a distributor, note that you are responsible for notifying your affected customers

Please inform us of any adverse events and/or report them to the Health/Competent Authorities in accordance with current regulations.

Your designated contact person for this action is given below. Should you have any queries concerning this matter please do not hesitate to contact them directly.
