

Drägerwerk AG & Co. KGaA, 23542 Lübeck

To our customers of the
Dräger Anesthesia Workstations Atlan

April 2026

Addendum Important Safety Notice!

**Possible failure of automatic ventilation
due to a fault in the motor electronics**

**ONLY Atlan anesthesia workstations listed in the appendix are affected.
Other anesthesia devices are NOT affected!**

Dear Sir or Madam

As part of a corrective measure in October 2024, we distributed the **attached important safety notice** and, as a precautionary measure, replaced ventilator motors that had been damaged by a temporary deviation in the assembly process.

In the course of our continuous market monitoring, we have determined that a limited number of additional Atlan devices were affected by this October 2024 notice and, as a precautionary measure, are replacing these ventilator motors.

Please refer to the attached **Important Safety Notice** dated October 2024 and list of affected Atlan devices.

Please ensure that all users of the Dräger Atlan and other affected persons in your company take note of this important safety notice.

For confirmation, please fill out the enclosed reply card and return it within 14 days to us.

If you have made the products available to third parties, please forward a copy of this important safety notice to them.

Please keep this important safety notice until the affected components have been replaced. The competent authorities have been informed about this Field Action.

Identification of affected medical devices:

According to our records, you have received at least one Atlan anesthesia workstation manufactured by Drägerwerk AG & Co. KGaA (European Single Registration Number: DE-MF-000005329) that may be affected by this problem. Please refer to the attached list of affected Atlan devices. Our Dräger Service will contact you and arrange an appointment for the replacing the ventilator motor free of charge.

If you have any questions, please do not hesitate to contact your local Dräger representative.

We apologize for any inconvenience this measure may cause you.

Sincerely

APPENDIX 1: IMPORTANT SAFETY NOTICE from October 2024

Technology for Life

Drägerwerk AG & Co. KGaA, 23542 Lübeck, Germany

To our customers with
Dräger Atlan workstations

October 2024

Important safety notice!

Possible failure of the automatic ventilation
due to an error in the motor electronics

**This only affects Atlan anaesthesia workstations with serial numbers
according to the attached list.**

Other anaesthesia machines are NOT affected!

Dear Sir or Madam,

In the course of our global market surveillance, we have become aware of cases in which the Atlan anaesthesia workstations either indicated a failure of the piston ventilator before use or suffered a failure of the mechanical ventilation during use. There have not been any reports of patient injuries to date.

Our investigations revealed that the cases are due to an error in the motor electronics, which was caused by a temporary deviation in the assembly process. This may have affected Atlan anaesthesia workstations with the mentioned serial numbers. According to our records, you have received one or more devices from the serial number range affected from us.

If the error occurs before use, e.g. in standby or system test mode, mechanical ventilation cannot be started. If the error occurs during a procedure, the mechanical ventilation may fail, and the device alerts the user by displaying the "Ventilator error!!!" message. Manual ventilation or spontaneous breathing remains possible in both cases. It may be necessary to manually ventilate the patient to prevent patient injury. With ongoing alarm of the ventilation failure the Atlan continues to provide the Man/Spon ventilation mode, fresh-gas and agent delivery as well as all monitoring functions without restriction.

Technology for Life

Our Dräger Service will contact you and arrange an appointment for replacing the motor, free of charge.

Until then, please continue operating your devices with the customary care by only using the device under permanent supervision in line with the Atlan instructions for use. If the mechanical ventilation fails, use Man/Spon ventilation mode to ventilate the patient manually as needed.

If necessary, you can downgrade the alarm priority of the "Ventilator error!!!" alarm with "ALARM RESET".

We regret any inconveniences this may cause.

Please ensure that all users of the Dräger Atlan as well as other persons concerned within your organization are made aware of this Important Safety Notice. Please complete and return the attached reply card to confirm this.

If you have made the products available to third parties, please forward a copy of this Important Safety Notice to them.

Please store this Important Safety Notice at least until the motor has been replaced.

The responsible authorities have been notified of this action.

Identification of affected medical devices:

According to our records, you have received at least one Atlan anaesthesia workstation manufactured by Drägerwerk AG & Co. KGaA that may be affected by this issue.

Contact:

If you have any questions, please do not hesitate to contact your local Dräger representative. We apologise for any inconvenience this measure may cause.

Yours faithfully,

Christoph Marquardt
