3. Register Regulation Devices	5
3.1. Register a Basic UDI-DI together with a UDI-DI of a Regulation Device	6
3.1.1. Step 1: Basic UDI-DI identification information	7
3.1.2. Step 2: Certificate information (if applicable)	10
3.1.3. Step 3: UDI-DI identification information	12
3.1.4. Step 4: UDI-DI characteristics	16
3.1.5. Step 5: Device information	19
3.1.6. Step 6: Container package details	24
3.2. Register a UDI-DI for an existing Basic UDI-DI of a Regulation Device	27
4. Register System or Procedure Packs (SPP)	30
4.1. Register Basic UDI-DI together with a UDI-DI for a System or Procedure Pack	30
4.1.1. Step 1: Basic UDI-DI main information	30
4.1.2. Step 2: Basic UDI-DI information	31
4.1.3. Step 3: UDI-DI identification information	33
4.1.4. Step 4: UDI-DI characteristics	35
4.1.5. Step 5: Container package details	36
4.2. Register a UDI-DI for an existing Basic UDI-DI of a System or Procedure Pack	38
4.2.1. Step 1: UDI-DI identification information	39
4.2.2. Step 2: UDI-DI characteristics	41
4.2.3. Step 3: Container package details	41
5. Manage your own Device information	42
5.1. Manage your device Basic UDI-DI/EUDAMED DI details	42
5.1.1. Delete draft Basic UDI-DI/EUDAMED DI	43
5.1.2. Update Basic UDI-DI/EUDAMED DI	44
5.1.3. View Basic UDI-DI/EUDAMED DI historical versions	46
5.2. Manage your device UDI-DI/EUDAMED ID details	47

5.2.1. Delete draft UDI-DI/EUDAMED ID	49
5.2.2. View registered UDI-DI/EUDAMED ID details	50
5.2.3. Update UDI-DI/EUDAMED ID	56
5.2.4. Update Product original manufacturer	61
5.2.5. Update Market Information	63
5.2.6. Update Container Packages	64
5.2.7. Discard registered UDI-DIs/EUDAMED IDs (and their Basic UDI-DI/EUDAMED DI)	69
5.2.8. Link registered Regulation Device to registered Legacy Device	70
5.2.9. Delete link between Regulation Device and Legacy Device	73
5.2.10. View historical versions of UDI-DI/EUDAMED ID and associated entities	74
6. Manage your own System or Procedure Pack (SPP) information	76
6.1. Manage your SPP Basic UDI-DI details	76
6.1.1. Delete a SPP draft Basic UDI-DI	77
6.1.2. Update SPP Basic UDI-DI	78
6.1.3. View SPP Basic UDI-DI historical versions	80
6.2. Manage your SPP UDI-DI details	81
6.2.1. Delete SPP draft UDI-DI	82
6.2.2. Update SPP UDI-DI	83
6.2.3. Update SPP Container Packages	85
6.2.4. Discard SPP registered UDI-DIs	87
6.2.5. View SPP historical versions for UDI-DI and associated entities	89
7. Search & View Devices and Systems or Procedure Packs ..	90
7.1. Search & View historical versions of Devices or SPPs	92
7.2. Download Devices or SPPs data in a structured format (XML)	93
7.3. View historical versions of Basic UDI-DI/EUDAMED DI, UDI-DI/EUDAMED ID and associated entities	95
8. Annex – device certificate information	99

1 Introduction

Regulation (EU) 2017/745 on medical devices and Regulation (EU) 2017/746 on *in vitro* diagnostic medical devices introduce an EU identification system for medical devices based on a Unique Device Identifier (UDI).

The UDI-DI/Device module of EUDAMED is used for the manufacturers to provide their UDIs/Devices information and to make it available to everyone.¹

WARNING

EUDAMED does not contain all constraints defined in the MDR/IVDR, guidance and good practices, and therefore, it is not because something is possible in EUDAMED that it is necessarily allowed.

VIDEO: What is a UDI?

INFOGRAPHIC: Basic UDI-DI/UDI-ID concept

¹For a wider understanding on how to use the platform visit the [EUDAMED Information Centre](#). For information specific to UDI, visit the [UDI Helpdesk](#).

IDENTIFIERS

What are the different identifiers?

A **Regulation Device** and a **System/Procedure Pack** must have an assigned **Basic UDI-DI** and **UDI-DI**, and they must be registered in the 'UDI/Device module' (UDI database) of EUDAMED.

Basic UDI-DI

UDI-DI

Package UDI-DI
(If applicable)

2 Getting started

What I need to access EUDAMED

1. [EU Login \(ECAS\) account](#):

To use EUDAMED, you must have an EU Login account associated with your professional email address and the manufacturer for which you want to act on behalf must be registered as an actor in EUDAMED.

2. User profile registration in EUDAMED:

For information on how to gain access to EUDAMED, please consult the [Economic Operators user guide](#).

NOTE

EUDAMED is also available in a Playground environment, intended to enable you to experiment with the application. All the information in this environment is dummy (including the Actor ID/SRN) and will never be moved to the Production environment. Access to the Playground requires a separate registration.

Every user in EUDAMED is granted by default the profile *Viewer* for the UDI/Device module, and can search and view registered devices. However, to enter UDI/Device data in EUDAMED, you must request access for the UDI/Device module with a higher profile ² as either:

- A *Proposer* – this profile allows you to create and delete draft records related to your manufacturer, or
- A *Confirmer* – this profile includes the Proposer rights and additionally, allows you to submit and discard records.

NOTE

See the [Economic Operators user guide](#), Section *Upgrading your user profile* for further information on how to upgrade your profile from *Viewer* to *Proposer* or *Confirmer*.

²See the [Economic Operators user guide](#), Section *User rights and profiles*, for more information on user rights and profiles.

IMPORTANT

A Local Actor Administrator (LAA)/Local User Administrator (LUA) of your manufacturer must approve your user access request (If you don't have a second user with LAA/LUA profile, please refer to the [Economic Operators user guide](#), Section *Requesting access as a second LAA user to an existing registered actor*).

Before you start entering details of a UDI/device in EUDAMED, please ensure you have all the required information at hand, including the Basic UDI-DI and UDI-DI codes. Fields marked with a red asterisk are mandatory.

3 Register Regulation Devices

 VIDEO: Registering Regulation Devices

Each Regulation Device must have a unique Basic UDI-DI and a unique UDI-DI assigned to it. Both are always required – you cannot register a Basic UDI-DI without a UDI-DI.

You will be asked to enter EUDAMED via your EU Login account.

 INFOGRAPHIC: UDI registration for regulation devices

3.1 Register a Basic UDI-DI together with a UDI-DI of a Regulation Device

 **INFOGRAPHIC:** Basic UDI-DI/UDI-ID concept

3.1.1 Step 1: Basic UDI-DI identification information

VIDEO: UDI and medical software devices

1. Click on *Register a new Basic UDI-DI*:

Welcome to EUDAMED

MDR EUDAMED is the IT system developed by the European Commission to implement [Regulation \(EU\) 2017/745](#) on medical devices and [Regulation \(EU\) 2017/746](#) on in vitro diagnosis medical devices.

MDR EUDAMED is structured around 6 interconnected modules and a public site.

[See all the news](#)

Tasks

By module, consult, verify and/or manage your own and related data (managed by your actor), depending on your profile.

My Actor data	UDI-DIs/Device	User management
Manage your actor data Manage your email notifications	Register a new Basic UDI-DI Register a legacy device Manage your Basic UDI-DIs / EUDAMED DIs Manage your Devices details	Assess user access requests Manage your users

2. Enter the Basic UDI-DI information and select the applicable regulation.

NOTE

In this guide, the selection is MDR (Regulation (EU) 2017/745). Based on the regulation you choose, the characteristics of the Device to be entered will vary.

UDI-DI registration

Manufacturer identification

Organisation name: Test MF
Actor ID/SRN: LI-MF-000000104
Address: Oak St, 101 8088 Vaduz
Telephone number: +343 8987 65 13
Email: eudamed@manufacturer.com

*** Applicable regulation**

☐ MDR (REGULATION (EU) 2017/745 on medical devices)
☐ IVDR (REGULATION (EU) 2017/746 on in vitro diagnostic medical devices)

Depending on the regulation selected an additional question appears at the bottom of the page:

Regulation	Additional question
MDR	<i>Is it a System or Procedure Pack which is a Device in itself?</i> + additional sub-questions about the device type, depending on whether your answer is <i>Yes</i> or <i>No</i> to this first question
IVDR	<i>Is it a kit?</i> + additional sub-question about the device type, if you answer <i>No</i> to this first question

Is it a System or Procedure Pack which is a Device in itself?

Yes ☒ No ☐

☐ Procedure Pack which is a Device in itself
☐ System which is a Device in itself

If you select **No**, please choose the right information under the appearing section *Special Device type* (for IVDR, if you select **No** for *Is it a Kit?*, the only option for Special device type if applicable is *Software*³ (See video above):

Special device type

Yes ☒ No ☐

☐ Software
☐ Standard soft contact lenses
☐ Standard Rigid Gas Permeable (RGP) contact lenses
☐ Made to order soft contact lenses
☐ Made to order Rigid Gas Permeable (RGP) contact lenses
☐ Spectacle frames
☐ Spectacle lenses
☐ Ready-made reading spectacles

³For more information, visit the EUDAMED Information Centre, or the [UDI Assignment to Medical Device Software](#) webpage.

**NOTE**

If one of the following Special Device types is selected, the Master UDI-DI applies:

- Standard soft contact lenses
- Standard Rigid Gas Permeable (RGP) contact lenses
- Made to order soft contact lenses
- Made to order Rigid Gas Permeable (RGP) contact lenses.

3. Fill in the Basic UDI-DI identification details and click **Save & Next**:

Basic UDI-DI main information

* Issuing Entity:

* Basic UDI-DI code:

Save & Next >

**IMPORTANT**

EUDAMED will validate the Basic UDI-DI code based on the specific format for each Issuing Entity and will prevent you from going further if the code is not valid.

If the Basic UDI-DI code already exists in EUDAMED, the system will prevent you from saving, as a Basic UDI-DI must be unique.

4. Non-EU manufacturers will have to select the Authorised Representative for the Basic UDI-DI amongst those with which they have an active mandate registered in EUDAMED.

If there is only one Authorised Representative with an active mandate with the non-EU Manufacturer, it will be automatically retrieved:

Authorised representative identification

Organisation name: Belgian AR A

Eudamed actor ID: BE-AR-000000046

Address: Rue E, 1 1060 Brussels

Telephone number: -

Email: contact@belgian-ar-a.be

5. Choose a Risk Class and select **Yes** or **No** for each option that follows.

Basic UDI-DI information

* Risk class:

* Measuring function

☐ Yes ☐ No

* Active device

☐ Yes ☐ No

* Device intended to administer and/or remove medicinal product

☐ Yes ☐ No

6. Select **Yes** or **No** if Device model is applicable. If you selected *No*, the Device Name will be mandatory, otherwise, it is mandatory to enter the Device model and the Device name (at the Basic UDI-DI level) if there is one (note that the device trade name is part of the UDI-DI data):

Device model applicable

Yes ☒ No ☐ Device model is required by default unless you select the option - No

* Device model:

Device Model_Test

Device Name:

7. Click **Save** to save your registration as a draft and continue later, or **Save & Next** to save it as a draft and continue directly with the following steps:

Save **Save & Next >**

3.1.2 Step 2: Certificate information (if applicable)

This section only becomes accessible depending on the Risk Class information provided and additional properties in the Basic UDI-DI.

**NOTE**

Certificate Information for a Basic UDI-DI registration is applicable only when its confirmation by the Notified Body from the certificate registration is required (as specified in Art 29(3) MDR/Art 26(2) IVDR).

In [Annex – Device Certificate Information \[99\]](#) you can find the different cases in which Certificate information is required and the type of certificate.

In brief, it is applicable for MDR risk class III and IIb and IVDR risk class B with self-patient testing/near-patient testing, risk class D and C.

For certificate information, at least the following should be provided:

- whether *EU type examination certificate* is applicable.
- the Notified Body (NB) responsible for the product certificate.
- if known, the certificate identification.

Additionally, more information on the certificate type could be required depending on the risk class and properties specified for the Basic UDI-DI. For the NB, enter some or all of the NB name or number, click **Find** and choose the correct Notified Body from the new window.

If known, enter the certificate number and revision number and click **Save** or **Save & Next**.

Certificate information

EU type-examination certificate if applicable

Yes ☒ No ☐ EU type-examination certificate is required unless you select the option - No

* Enter NB number or name:

Certificate number: Revision number:

**NOTE****Notifications to MFs and ARs**

When a new Product Certificate has been registered in EUDAMED both the MF and the AR are notified.

3.1.3 Step 3: UDI-DI identification information

VIDEO: UDI carrier and display formats

1. Select the *Issuing Entity* from the drop-down list and enter the *UDI-DI code*.

IMPORTANT

The UDI-DI code you enter must be unique. If it already exists in EUDAMED, you will not be able to Save.

Exception: the same UDI-DI can be used for a Legacy Device and its Regulation Device equivalent.

If the same UDI-DI code was already provided for a Legacy Device (i.e. applicable legislation MDD, AIMDD or IVDD), you will be prompted that a link will be created between the two devices (the Regulation and the Legacy Device) on the condition there is no conflict between some of the Basic UDI-DI properties and the related legacy device EUDAMED DI properties. In case of conflict, the system will prevent you from using the same UDI-DI.

NOTE

In the case of a GS1 Issuing Entity, the UDI-DI code you enter must be a 14-digit code including the check digit that will be used by EUDAMED to validate the UDI-DI code. If your GS1 UDI-DI (GTIN code) is shorter than 14 digits (check digit included), when populating EUDAMED field please add leading zero(s) until you reach 14 digits.

For example:

000000nnnnnnnnnn (GTIN-8)

00nnnnnnnnnnnnnn (GTIN-12)

0nnnnnnnnnnnnnnnn (GTIN-13)

**NOTE**

When registering a Master UDI-DI code, a specific format validation algorithm is applied when the issuing entity is GS1:

- For **Standard soft contact lenses** and **Standard Rigid Gas Permeable (RGP) contact lenses** the system applies the GMN format validation algorithm.
- For **Made-to-order soft contact lenses** and **Made-to-order Rigid Gas Permeable (RGP) contact lenses** the system applies the GTIN UDI-DI format validation algorithm.

2. If applicable, enter the Secondary UDI-DI from a different Issuing Entity to the UDI-DI:

UDI-DI identification

UDI-DI identification

* Issuing Entity: * UDI-DI code:

UDI-DI from another entity (secondary) applicable

Yes ☒ No ☐ UDI-DI from another entity is required unless you select the option - No

* Issuing Entity: * Secondary UDI-DI value:

3. Enter the EMDN code and click **Find**, and select the correct one from the list:

* Enter the nomenclature code (EMDN code):

[Advanced search of device nomenclature](#)

4. If applicable, enter the trade name (as specified on the device label) and select its related language (select **All languages** if not language dependent):

Trade name applicable

Yes ☒ No ☐ Trade name is required unless you select the option - No

* Trade name: * Select the language:

[Add a trade name in another language](#)

5. Enter the *Reference/Catalogue number*.

* Reference/Catalogue number:

REF_TEST

NOTE

For a Master UDI-DI, if there are multiple Reference/Catalogue numbers, you may enter 'many' as the value:

Reference/Catalogue number

If you have more than one Reference/Catalogue number, please enter the word 'many'

* Reference/Catalogue number:

many

6. Specify whether the device is directly marked or not:
 - If the device is directly marked, you must either indicate it is the same as the UDI-DI or enter the UDI-DI and issuing entity of the Direct marking DI.

* Is the device directly marked?

☒ Yes ☐ No

☐ Same as UDI-DI

* Issuing Entity:

--

* Direct marking DI:

NOTE

Direct Marking UDI-DI is not applicable for a Master UDI-DI. The field is set to *No* and it is greyed out.

7. If the device is not directly marked and the base quantity of the device is **greater than one**, you may enter the Unit of Use DI and its issuing entity:
 - The same Unit of Use DI (UoU DI) can be used for different UDI-DIs in case the same device has different root packaging (each one having a different UDI-DI).

* Is the device directly marked?

☐ Yes ☒ No

* Quantity of device:

2

Issuing Entity:

--

Unit of Use DI:

NOTE

The *Unit of Use DI* and its *Issuing Entity* fields are not applicable for a Master UDI-DI. They are set to *No* and they are greyed out.

8. If the base quantity is **less than two**, then no Unit of Use DI (UoU DI) is provided:

* Is the device directly marked?

☒ Yes ☐ No

* Quantity of device:

1

* Type of UDI-PI

☐ Lot or Batch number

☐ Serial number

☐ Manufacturing date

☐ Expiration date

NOTE

For a Master UDI-DI, please indicate the maximum number of devices for the *Quantity of Device*:

Quantity of device

i Please indicate the maximum number of devices.

* Quantity of device:

20

9. Select the *Type of UDI-PI*.
10. Enter any additional pertinent information about the device, select the language in which the additional information is provided and enter a URL (web address) for additional information online if applicable:

Additional product description:

Product Description

Select the language:

Bulgarian

Croatian

Czech

Danish

Dutch

English

[Add additional product description in another language](#)

URL for additional information (as electronic instructions for use):

11. Specify the UDI-DI status in selecting whether it is *On the EU market*, *Not intended for the EU market* or *No longer placed on the EU market* and click **Save** or **Save & Next**:

*** UDI-DI status**

☐ No longer placed on the EU market
☒ Not intended for the EU market
☐ On the EU market

3.1.4 Step 4: UDI-DI characteristics

1. Specify clinical size for the UDI-DI if applicable and choose the dimension and the precision values in the drop-down lists below:

NOTE

When the selected *Clinical size* type has the option *Other*, users will be required to enter the *Description of the Clinical size type* and the language of description. The same applies for Measure unit.

In case both the Clinical size and Measure unit have the option *Other*, the description for the two fields needs to be provided in the same languages.

Clinical size applicable

Yes ☒ No ☐ Clinical size is required unless you select the option - No

Select type(s) of dimension you need

* Type:

* Precision: * Minimum: * Maximum: * Measure unit:

[Add a type of dimension](#)

You must provide one of the following precision types:

- Range – requires minimum and maximum values and the measure unit
- Text – requires free text entry
- Value – requires the size and the measuring unit

You may add several clinical sizes by adding different types of dimensions, but only one dimension for a given type.

2. Specify if the device is labelled as *single use*.
When the device is not labelled *single use* you must provide the number of reuses if applicable:

- If the *Maximum number of reuses* is not applicable, then the device is considered as *non-single use Device* and it does not have a maximum number of reuses (infinite number of reuses)
- If value provided is ≥ 1 , the device is considered as a *non-single use Device* having a limited number of reuses (the value provided)

* Labelled as single use

☐ Yes ☒ No

Maximum number of reuses applicable

Yes ☒ No ☐  Maximum number of reuses is required unless you select the option - No

If applicable, should be understood to cover those devices where based on clinical evidence and as a result of the risk management process, a manufacturer has demonstrated a maximum number of reuses, which should not be surpassed. [MDCG 2018-1](#) provides further information.

* Maximum number of reuses:

3. Select **Yes** or **No** for each of the options below:

* Need for sterilisation before use

☐ Yes ☐ No

* Device labelled as sterile

☐ Yes ☐ No

* Containing latex

☐ Yes ☐ No

NOTE

Containing latex is only for MDR, not applicable for IVDR.

4. For MDR enter the CMR and/or Endocrine disruptor substances if applicable. When specifying CMR and/or Endocrine substances you may provide the EC# or CAS#. If you do provide them, only the *Name of substance* is required (the language is no longer required):

*** CMR/Endocrine disruptor**
 Labelled for presence of Carcinogenic, Mutagenic and toxic to Reproduction (CMR) substances of category 1A or 1B:

☒ Yes ☐ No

*** Category of CMR:**
☒ 1A ☐ 1B

At least one of these fields (EC# or CAS#) must be filled in.

EC#: CAS#:

[ECHA database >](#)

*** Name of the substance:**

[Add a CMR substance](#)

Labelled for presence of substance(s) with endocrine-disrupting properties:
☐ Yes ☐ No

5. Fill in the *Storage/handling conditions* section:

Storage/handling conditions, if applicable

Yes ☒ No ☐ Storage/handling conditions are required unless you select the option - No

*** Storage/handling conditions type:**

Description:

[Add another storage/handling condition](#)

NOTE

For Storage/handling conditions type *Other*, users must enter the Description of the *Storage/handling condition type* and the description's language.

6. Fill in *Critical warnings or contra-indications*, and click **Save** or **Save & Next**:

Critical warnings or contra-indications, if applicable

Yes ☒ No ☐ Critical warning or contra-indications are required unless you select the option - No

*** Critical warning type:**

*** Description:**

[Add critical warnings or contra-indications](#)

**NOTE**

For Critical warning or contra-indications type *Other*, users must enter the Description of the Critical warning or contra-indications *type* and the description's language.

3.1.5 Step 5: Device information

1. For MDR, specify if it is a reprocessed single use device and if it has an intended purpose other than medical (Annex XVI):

Device information

*** Reprocessed single use device**

☐ Yes ☐ No

*** Intended purpose other than medical (Annex XVI)**

☐ Yes ☐ No

2. If you select *Yes* for the *Intended purpose*, select the relevant purpose(s):

*** Intended purpose other than medical (Annex XVI)**

☒ Yes ☐ No

☒ Contact lenses

☒ Products intended to be totally or partially introduced in the human body

☐ Substances, combinations of substances, or items intended for filling by injection

☐ Equipment intended to be used to reduce, remove or destroy adipose tissue

☐ High intensity electromagnetic radiation

☐ Brain electrostimulation

**NOTE**

When registering a Master UDI-DI for contact lenses, if you select *Yes* for Annex XVI, the list of possible choices will not be displayed, as it is already predefined.

3. Select **Yes** or **No** if the device was designed and manufactured by another legal or natural person.

If **Yes**, there are two ways to find the *Product original manufacturer* of the device:

- Check the box *I know the Actor ID/SRN*, enter the Actor ID/SRN or name of the *Product original manufacturer* of the device and click **Check registry**:

Is the device designed and manufactured by another legal or natural person?

Yes ☒ No ☐

☒ I know the Actor ID/SRN

* Enter Actor ID/SRN or name:

**NOTE**

Check the box *I know the Actor ID/SRN* in order to search for an existing registered Manufacturer Actor either by SRN or by name.

Select the Actor from the list:

[Close](#)

Select manufacturer

*** Name of the substance:**

*** Select the language:**

 [Add another language](#)

 [Add a substance](#)

Presence of a substance which, if used separately, may be considered to be a medicinal product derived from human blood or human plasma:

☐ Yes ☒ No

For IVDR, select **Yes** or **No** to fill information on tissues and cells and specify if the device is new.

NOTE

A device shall be considered *new* if:

- There has been no such device continuously available on the Union market during the previous three (3) years for the relevant analyte or other parameter.
- The procedure involves analytical technology not continuously used in connection with a given analyte or other parameter on the Union market during the previous three (3) years.

6. Choose a Member State in the drop-down list where the device is or has been first placed on the EU market, and click **Save** or **Save & Next**:

* Member State where the Device is to or has been first placed on the EU market:

France ▼

Member States where the device is or is to be made available on the market:

Finland	From			To			
		YYYY-MM-DD			YYYY-MM-DD		
France	From			To			
		YYYY-MM-DD			YYYY-MM-DD		

[Select one or more countries >](#)

**NOTE**

The countries where the device is or is to be made available on the market are mandatory, to be provided when the device's status is *On the EU market* and device's risk class is **not risk class I (MDR) and not risk class A (IVDR)**.

3.1.6 Step 6: Container package details

VIDEO: UDI carrier placing

1. Click on *Add container package* when there is a higher packaging level for the root UDI-DI:

You are not obliged to provide container package(s) UDI-DI before submitting this request.

[Add container package](#)

Save Submit Preview

Each package level requires a unique UDI-DI assignment.

Start by registering the container package associated with the root UDI-DI (also known as the primary UDI-DI). You may add multiple levels and container packages. Input the *Issuing Entity*, UDI-DI code for the package, *Quantity per package*, select the *Package status* and then click **Save**:

☒ On the EU market

Save

Cancel

**NOTE**

If the UDI-DI already exists in EUDAMED, the system will prevent you from saving.

**NOTE**

If the status of the device for this container package is either *No longer placed on the EU Market* or *Not intended for the EU Market*, the *Package status* options are greyed out and any container package added to this device will automatically have the same *Package status* as the device.

**NOTE**

When registering a Master UDI-DI code, a specific format validation algorithm is applied when the issuing entity is GS1:

- For **Standard soft contact lenses** and **Standard Rigid Gas Permeable (RGP) contact lenses** the system applies the GMN format validation algorithm.
- For **Made-to-order soft contact lenses** and **Made-to-order Rigid Gas Permeable (RGP) contact lenses** the system applies the GTIN format validation algorithm.

2. Select the generated information and click **Submit**:

4. The screen will display a success message:

Basic UDI-DI registration

 **Congratulations. You have successfully submitted your Basic UDI-DI registration request.**

What do you want to do now?

[Enter another UDI-DI associated to Basic UDI-DI 1212123333333345HG](#)
[Register new Basic UDI-DI](#)
[Go to the dashboard](#)

**IMPORTANT**

After submitting the Device, the state of the Device (Basic UDI-DI and UDI-DI) will be:

- **Registered**, if the Basic UDI-DI data does not require confirmation from the Notified Body (Basic UDI-DI and UDI-DI is publicly available in the EUDAMED public website);
- **Submitted**, if the Basic UDI-DI data requires confirmation from the Notified Body (Basic UDI-DI and UDI-DI is not publicly available and will only get the *Registered* state and become publicly available after Notified Body confirmation).

3.2 Register a UDI-DI for an existing Basic UDI-DI of a Regulation Device

1. On the EUDAMED Dashboard, select *Manage your Basic UDI-DIs/ EUDAMED DIs*:

2. Filter the Basic UDI-DIs/ EUDAMED DIs in state *Submitted* or *Registered*:

**IMPORTANT**

Additional UDI-DIs for a Basic UDI-DI can be added only for Regulation Devices (not for Legacy Devices).

New UDI-DIs can be added only to Basic UDI-DIs that are in state *Registered* or *Submitted*:

After Submitting the UDI-DI, the state of the UDI-DI will be:

- **Registered** if the Basic UDI-DI has the state *Registered*;
- **Submitted** if the Basic UDI-DI has the state *Submitted*.

4 Register System or Procedure Packs (SPP)

4.1 Register Basic UDI-DI together with a UDI-DI for a System or Procedure Pack

Registering System or Procedure Packs is only possible for users belonging to an actor that is a System and Procedure Pack producer.

4.1.1 Step 1: Basic UDI-DI main information

1. On the EUDAMED dashboard, click on *Register a New System Procedure Pack*:

The screenshot shows the EUDAMED dashboard interface. At the top, there is a navigation bar with links: Home, Tasks (dropdown), Search & view (dropdown), Transmission (dropdown), News, Help (dropdown), and a user profile for John Smith with a Logout button. Below the navigation bar, a banner indicates the 'CURRENT ACTOR: System/Procedure Pack Producer, BE-PR-000000062, AR_SPPP [Belgium]' with a 'Switch actor' button and a notification icon. The main content area is titled 'Welcome to EUDAMED' and includes a brief description of the system and a link to 'See all the news'. Under the 'Tasks' section, which is titled 'By module, consult, verify and/or manage your own and related data (managed by your actor), depending on your profile.', there is a sub-section 'System or Procedure Pack' containing three links: 'Register a new System Procedure Pack', 'Manage your Basic UDI-DIs', and 'Manage your UDI-DIs'.

2. Next, specify the *Issuing Entity* and the *Basic UDI-DI code*:

The screenshot shows the 'System or Procedure Pack registration' form. It is divided into several sections. The first section, 'Procedure pack producer identification', contains fields for Organisation name (AR_SPPP), SRN (BE-PR-000000062), Address (8686 Brussels), Telephone number (-), and Email (ar_sppp@abc.com). The second section, 'Applicable regulation', specifies 'MDR (REGULATION (EU) 2017/745 on medical devices)'. The third section, 'Basic UDI-DI main information', includes a dropdown for 'Issuing Entity' (currently set to '-') and a text field for 'Basic UDI-DI code'. Below this, there is a section for 'System or Procedure Pack type' with two radio buttons: 'Procedure Pack' (selected) and 'System'. At the bottom of the form is a 'Save & Next >' button.

**NOTE**

Only legislation MDR (Regulation (EU) 2017/745 on medical devices) is possible for system and procedure packs (selected by default).

**IMPORTANT**

EUDAMED will validate the Basic UDI-DI code you insert based on the specific format provided by each Issuing Entity. Please ensure that you enter the correct code with the check digits.

If the *Basic UDI-DI code* already exists in EUDAMED, the system will prevent you from saving – a Basic UDI-DI must be unique:

- Choose if you are registering a system or procedure pack and click on **Save & Next** to save your registration as a draft and move on to the next steps:

4.1.2 Step 2: Basic UDI-DI information

Enter the Basic UDI-DI information:

System or Procedure Pack registration

Producer identification

[BE-PR-000000062_AR_SPPP](#)

Basic UDI-DI identification

Applicable regulation: MDR (REGULATION (EU) 2017/745 on medical devices)

Basic UDI-DI code: 1212112121212DL

Basic UDI-DI information

* Risk class:

--

* Indication of medical purpose:

* Select the language:

2. Fill in the indication of medical purpose and select the related language from the drop-down list.

2017/745 on medical devices)

Basic UDI-DI code: 1212112121212DL

Issuing Entity: GS1

System or Procedure Pack type: Procedure Pack

--

* Indication of medical purpose:

* Select the language:

--

+ Add another indication of medical purpose

If you add the indication in multiple languages, click on *Add another indication of medical purpose* and select its language.

Select **Yes** or **No** if Device model is applicable and, if so, enter the Device model and a device name if there is one. Otherwise, enter only a Device name:

Device model applicable

Yes ☒ No ☐ Device model is required by default unless you select the option - No

* Model:

- Click on **Save** to save your registration as a draft, or click **Save & Next** to save it as a draft and continue to the next steps:

A horizontal bar with two buttons: 'Save' and 'Save & Next >'. The 'Save & Next' button is highlighted in a darker blue.

4.1.3 Step 3: UDI-DI identification information

- Select the *Issuing Entity* from the drop-down and enter the UDI-DI code:

The form is titled 'UDI-DI identification'. It contains two fields: '* Issuing Entity:' with a dropdown menu showing 'GS1' and a downward arrow, and '* UDI-DI code:' with an empty text input box.

IMPORTANT

The UDI-DI code must be unique. If it already exists in EUDAMED, you will not be able to save.

NOTE

In the case of a GS1 Issuing Entity, the UDI-DI code you enter must be a 14-digit code including the check digit that will be used by EUDAMED to validate the UDI-DI code. If your GS1 UDI-DI (GTIN code) is shorter than 14 digits (check digit included), when populating EUDAMED field please add leading zero(s) until you reach 14 digits.

For example:

- 000000nnnnnnnn (GTIN-8)
- 00nnnnnnnnnnnn (GTIN-12)
- 0nnnnnnnnnnnnnn (GTIN-13)

- Enter the Secondary UDI-DI from a different Issuing Entity to the UDI-DI if applicable:

The form is titled 'UDI-DI identification'. It contains two fields: '* Issuing Entity:' with a dropdown menu showing 'GS1' and a downward arrow, and '* UDI-DI code:' with an empty text input box. Below this is a section titled 'UDI-DI from another entity (secondary) applicable' with a toggle switch set to 'Yes' and an information icon. Below the toggle is a text: 'UDI-DI from another entity is required unless you select the option - No'. At the bottom are two fields: '* Issuing Entity:' with a dropdown menu showing '-' and a downward arrow, and '* Secondary UDI-DI value:' with an empty text input box.

3. Enter the EMDN code, click **Find** and select the correct one from the list:

4. If applicable, enter the trade name (as specified on the device label) and select its related language (select **All languages** if not language dependent):

5. Enter the *Reference/Catalogue number*.
6. Select the *Type of UDI-PI*.
7. Enter any additional pertinent information about the System or Procedure Pack, select the language of the additional information and enter a URL (web address) for additional information online, if applicable:

8. Specify the *UDI-DI status* in selecting whether it is *On the EU market*, *Not intended for the EU market* or *No longer placed on the EU market* and click **Save** or **Save & Next**:

*** UDI-DI status**

☐ No longer placed on the EU market
☒ Not intended for the EU market
☐ On the EU market

4.1.4 Step 4: UDI-DI characteristics

1. Select Yes or No for each option regarding sterilisation:

UDI-DI characteristics

*** Need for sterilisation before use**

☐ Yes ☐ No

*** Device labelled as sterile**

☐ Yes ☐ No

2. If Storage/handling conditions are applicable, slide the toggle to **Yes**. Choose the correct information from the list and provide a description where relevant:

Storage/handling conditions, if applicable

Yes ☒ No ☐
Storage/handling conditions are required unless you select the option - No

*** Storage/handling conditions type:**

OTHER *

*** Description:**

Test

*** Select the language:**

—

[+ Add storage/handling conditions in another language](#)
[+ Add another storage/handling condition](#)

NOTE

When the selected Storage/handling conditions type has the option *Other*, users will be required to enter the Description of the Storage/handling condition type and the description's language.

- Do the same for Critical warnings or contra-indications, and click **Save** or **Save & Next**:

Critical warnings or contra-indications, if applicable

Yes ☒ No ⓘ Critical warning or contra-indications are required unless you select the option - No

* Critical warning type:

Caution: Contains of presence of...
Defibrillation-proof type CF applied part

* Description: Test

+ [Add critical warnings or contra-indications](#)

Save Save & Next >

**NOTE**

When the selected Critical warning or contra-indications type has the option *Other*, users will be required to enter the Description of the Critical warning or contra-indications type and the description's language.

- Click **Save** to save draft and finish later or **Save & Next** to move directly to the next step of the process:

Save Save & Next >

4.1.5 Step 5: Container package details

VIDEO: UDI and Systems and Procedure Packs

- Click on *Add container package* when there is a higher packaging level for the root UDI-DI:

i You are not obliged to provide container package(s) UDI-DI before submitting this request.

+ [Add container package](#)

Save **Submit >** [Preview](#)

A unique UDI-DI must be assigned to each package level. You add a higher container package to the root UDI-DI if there is no container package UDI-DI yet, or to the selected UDI-DI (you can add as many levels and as many container packages per level as you have). Add the *Issuing Entity*, *Package UDI-DI code* and the *Quantity per package*, select the *Package status* and click on **Save**:

**NOTE**

If the UDI-DI already exists in EUDAMED, the system will prevent you from saving.

Add container package [xClose](#)

Container package UDI-DI for UDI-DI product-original-manufacturer

* Issuing Entity:	* Package UDI-DI code:	* Quantity per package:	Total number of devices

*** Member States where the device is or is to be made available on the market:**

*** [Select one or more countries >](#)**

**TIP****Master UDI-DI update variation**

When creating a new version of a Master UDI-DI, the *Quantity of device* field is editable, whereas for the UDI-DI, it is not.

2. To finish the action you have two options:
 - **Save** the updated details without submitting the new version.
 - **Submit new version**, if you wish to finalise the update.

Once you have submitted the new version, click **Confirm** in the pop-up window to finalise the update:

5.2.4 Update Product original manufacturer

The *Product original manufacturer* information can be updated independently of other data in a device UDI-DI record.

NOTE

Product original manufacturer information can be updated if it was initially provided with details of an Organisation that is not a registered Actor with an Actor ID/SRN.

It **cannot** be updated if it was initially marked as *Not applicable*, or if it was specified with an Actor ID/SRN.

Follow the steps in section [Manage your device UDI-DI/EUDAMED ID details \[47\]](#) to view a UDI-DI/EUDAMED ID.

1. Once inside the details of the selected UDI-DI, click **Product original manufacturer** from the list on the left (or scroll down to *Product original manufacturer*):

Basic UDI-DI data | UDI-DI(s) (2)

UDI-DI existing-PD-1 See UDI-DI(s) list (2) Next UDI-DI >

5.2.6 Update Container Packages

The Container Packages information can be updated independently of other data in a device UDI-DI record.

Follow the steps in section [Manage your device UDI-DI/EUDAMED ID details \[47\]](#) to view a UDI-DI/EUDAMED ID.

- Once inside the details of the selected UDI-DI, click on *Container Package information* from the list on the left (or scroll down to the relevant section):

Basic UDI-DI data UDI-DI(s) (2)

UDI-DI existing-PD-1

5.2.7 Discard registered UDI-DIs/EUDAMED IDs (and their Basic UDI-DI/EUDAMED DI)

IMPORTANT

The *discard* operation acts as a final deactivation. A device in state *discarded* is therefore not listed and cannot be viewed in the public site of EUDAMED. However, it can be viewed by the MF (owner of the discarded device), CA and NB actors.

You may wish to discard a registered UDI-DI in case you discover errors that cannot be corrected.

Follow the steps in section [Manage your device UDI-DI/EUDAMED ID details \[47\]](#) to view a registered UDI-DI/EUDAMED ID.

1. Once inside the details page of the selected UDI-DI, click **Discard** at the top right corner:

The screenshot shows the 'UDI-DI existing-PD-1' details page. On the right side, there are two buttons: 'Discard' and 'Create new version'. The 'Discard' button is highlighted with a red rectangular box. Above the buttons, there are links for 'See UDI-DI(s) list (2)' and 'Next UDI-DI'. The page also displays various data fields for the UDI-DI, including 'UDI-DI code', 'Issuing Entity', and 'UDI-DI from another entity'.

2. Confirm your intention to discard the registered UDI-DI:

The screenshot shows a modal dialog box titled 'Discard UDI-DI'. The text inside reads: 'Details of the UDI-DI will be Discarded (lost). The operation cannot be reverted. Do you want to finalize the operation?'. At the bottom, there are two buttons: 'Yes' and 'Cancel'. A mouse cursor is pointing at the 'Yes' button.

The UDI-DI will be discarded and will no longer be visible on the public EUDAMED website.

**CAUTION**

If the UDI-DI is the only one in this Basic UDI-DI category, the *discard* action will also discard the Basic UDI-DI. The system will alert you accordingly:

5.2.8 Link registered Regulation Device to registered Legacy Device

Follow the steps in [Manage your device UDI-DI/EUDAMED ID details \[47\]](#) and select the *Registered* option in the *State* field to manually link a registered regulation device to a registered legacy device.

1. Once inside the relevant registered regulation device click on *Link to legacy device*:

Go to Device Details management

Basic UDI-DI data UDI-DI(s) (3)

Need for sterilisation before use: No

Device labelled as sterile: No

[Discard](#) [Create new version](#)

6.2.1 Delete SPP draft UDI-DI

Follow the steps in section [Manage your SPP UDI-DI details \[81\]](#) to view a draft UDI-DI.

1. Once inside the draft, click **Delete**:

The screenshot shows the 'Basic UDI-DI data' page for a draft version of a UDI-DI. The page title is 'UDI-DI 34675806754T9'. On the left, there is a sidebar with 'UDI-DI data' and 'Container Package Information'. The main content area is titled 'UDI-DI data' and includes a status bar with 'Version 2 [Draft]', 'See version history', and 'Last update date: 2021-07-02'. There are 'EDIT' and 'DELETE' buttons. The data is organized into several sections:

- UDI-DI code:** 34675806754T9
- Issuing Entity:** HIBCC
- UDI-DI from another entity**
 - UDI-DI from another entity (secondary) applicable: No
- Selected nomenclature codes**
 - Code: A010102 BUTTERFLY NEEDLES
- Trade name**
 - Trade name applicable: Yes
 - Trade name: system 1All languages
 - Reference/Catalogue number: 543
- Type of UDI-PI**
 - Serial number: Yes
 - Manufacturing date: Yes
 - Additional product description: test 1 for SPPP System [BG]
 - URL for additional information (as electronic instructions for use): -
- UDI-DI status:** On the EU market

2. Confirm the deletion in the pop-up window:

The screenshot shows a 'Delete UDI-DI' pop-up window. It has a title bar with a close button (X) and a 'Close' link. The main text asks 'Delete the Draft version of UDI-DI?'. At the bottom, there are two buttons: 'Yes' and 'Cancel'.

6.2.2 Update SPP UDI-DI

Follow the steps in [Manage your SPP UDI-DI details \[81\]](#) to view a UDI-DI:

6.2.5 View SPP historical versions for UDI-DI and associated entities

Follow the steps in section [Manage your SPP UDI-DI details \[81\]](#) to view a UDI-DI for the SPP.

1. Once inside the details of the chosen UDI-DI, click *See version history* at the top of the table to view a list of all past versions:

The screenshot shows the 'Basic UDI-DI data' page for '12345-test-udi-1-HL'. At the top, there's a 'Create new version' button. Below it, a table shows the current version (Version 4) and a link to 'See version history'. The table lists the following data:

Applicable regulation:	MDR (REGULATION (EU) 2017/745 on medical devices)
Basic UDI-DI code:	12345-test-udi-1-HL
Issuing Entity:	GS1
Is it a System or Procedure Pack which is a Device in itself?:	Procedure Pack which is a device in itself

Below this, the 'Version history of Basic UDI-DI 12345-test-udi-1-HL' is shown. It includes a 'Go back to the current version' button and a list of three previous versions:

Version 3 - Last update date: 2021-06-09	>
Version 2 - Last update date: 2021-06-09	>
Version 1 - Last update date: 2021-05-03	>

2. Click on the version you wish to access to view its detailed summary:

The screenshot shows the 'Version history of Basic UDI-DI 12345-test-udi-1-HL' page. It includes a 'Go back to the current version' button and a list of three previous versions. The detailed summary for 'Version 2 - Last update date: 2021-06-09' is shown below. It includes a 'See all version history (3)' link and 'Previous version [v1] | Next version [v3]' links. The detailed summary for Version 2 is as follows:

Basic UDI-DI identification	
Applicable regulation: MDR (REGULATION (EU) 2017/745 on medical devices)	
Basic UDI-DI code: 12345-test-udi-1-HL	
Issuing Entity: GS1	
Is it a System or Procedure Pack which is a Device in itself? Procedure Pack which is a device in itself	
Risk class:	Class IIb
Implantable:	No

You can return to the version history list by clicking on *See all version history* at the top right corner.

7 Search & View Devices and Systems or Procedure Packs

1. On the header menu, click **Search & View**, then **UDI-DIs/Devices**:

Alternatively, use the *Search & View* option available on the dashboard:

2. You can use the filters to search for *Devices*, *Systems* and/or *Procedure Packs (SPP)* registered in EUDAMED, or, in the case of Competent Authorities and Notified Bodies, those *submitted* or *discarded*:

☒ Only enable search filters available for bulk XML download

UDI-DI/ EUDAMED ID 	Basic UDI-DI/ EUDAMED DI 	Status -- x v	Model
Name 	Trade name 	Applicable regulation -- x v	
Risk class -- x v	Nomenclature code 	Reference/Catalogue number 	Country -- x v

Scopes

Competent Authority -- x v	NB identification -- x v	MF / PR Actor ID/SRN 	MF / PR Name
AR Actor ID/SRN 	AR name 		

Results option
☒ Include historical version

- Once you have entered your search filters, click **Search** (the record will have to match all the filters). A list of Devices (UDI-DIs/EUDAMED IDs) and/or Systems or Procedure Packs will appear if any are found (otherwise *No data available* will be displayed):

Showing 1 to 20 of 5559 entries Show entries per page

7.2 Download Devices or SPPs data in a structured format (XML)

NOTE

You can only manually bulk-download in XML your own device or system/procedure pack data if you are a manufacturer or a system/procedure pack producer.

Follow the steps in [Search & View Devices, Systems and/or Procedure Packs \[90\]](#) to search and view a device or a system or procedure pack.

- On the *Search* page, activate the top filter (**Only enable search filters available for bulk XML download**) and enter your search criteria.
Enter the search criteria of your choice, and click **Search**:

☒ Only enable search filters available for bulk XML download

UDI-DI/ EUDAMED ID 	Basic UDI-DI/ EUDAMED DI 	Status -- x v	Model
Name 	Trade name 	Applicable regulation -- x v	
Risk class -- x v	Nomenclature code 	Reference/Catalogue number 	Country -- x v

Scopes

Competent Authority -- x v	NB identification -- x v	MF / PR Actor ID/SRN 	MF / PR Name
AR Actor ID/SRN 	AR name 		

Results option
☒ Include historical version

- Click on **Generate XML file**:

NOTE

Only what is shown on the result list will be included in the generated file and not all the results of your search. If the search yields multiple pages of results, you will need to download an XML file for each page to capture all the data.

- Confirm your action in the pop-up window:

Download

Are you sure you want to generate XML file...?

- The system will display a success message. Click **Go to Download Management** under the question *What do you want to do now?*:

5. You can download the generated XML file by clicking on it under the **Download** column:

7.3 View historical versions of Basic UDI-DI/EUDAMED DI, UDI-DI/EUDAMED ID and associated entities

Follow the steps in [Search & View historical versions of Devices, System and/or Procedure Packs \[92\]](#) to view the details of a Device or System or Procedure Pack.

1. Once inside the details of the chosen UDI-DI, go to the section in which you wish to view old versions (e.g. Basic UDI-DI/EUDAMED DI, UDI-DI/EUDAMED ID, Market Information, Product original manufacturer or Container Package) and click on *See version history*:
