## Information note

Please be informed that this list does not contain all the publications available in Romania.

Marketing Authorization Holders may take into consideration this list of Romanian medical publications for the monitoring of the literature in order to identify adverse

reactions and for monitoring the safety profile of the drugs for which they hold a marketing authorisation.

In accordance with art. 835, paragraph 3 of Law no. 95/2006 on healthcare reform, as republished, marketing-authorisation holders shall not be required to report to EudraVigilance suspected adverse reactions recorded in the listed medical literature monitored by EMA for products containing the active substances referred to in the list of substances being monitored by EMA. It is important to note that marketing-authorisation holders shall monitor all other medical literature and report any suspected adverse reactions.

The lists of substance (mainly chemical) and herbal-substance groups which are subject to the monitoring activities by the EMA are published on [EMA website](#).

A part of the Romanian publications included in this list may be found in the listed medical literature monitored by EMA, please consult the EMA list, published on [EMA website](#).
